Describe the Institutional efforts/initiatives in providing an inclusive environment i.e., tolerance and harmony towards cultural, regional, linguistic, communal socioeconomic and Sensitization of students and employees to the constitutional obligations: values, rights, duties and responsibilities of citizens.

Response:

Saffrony Institute of Technology has always been a medium of peace and harmony from its inception. A culturally inclusive environment requires mutual respect, effective relationships, clear communication, explicit understandings about expectations and critical self-reflection.

Throughout the Year Institute organizes many events to promote an inclusive environment, harmony towards cultural, regional, linguistic, communal socioeconomic and other diversities.

Fusion (Annual Cultural Festival)

The Institute conducts an Annual Cultural festival every year in the month of March-April to foster cultural harmony among students, faculty members and admin staff. Students perform varieties of traditional/classical arts forms from throughout the country. Student performances include dancing, singing, playing musical instruments, or showcase any other skills that they possess. Not only the students but the faculty members also perform that day and Saffrony Institute is one big Saffrony Family that day. Every year Fusion is organised with a theme which helps give a deeper meaning to every performance. This helps students enhance their skills and be mere sensitive and empathetic. A few themes of Fusion are: 'Hamaari Neev, Hamaari Shan', ‘Love, Peace, and Harmony’, etc.
