

Google Classroom

As part of our problem-solving methodologies at S.P.B. Patel Engineering College, we leverage the power of Google Classroom to enhance collaborative learning and streamline communication among students and instructors. Google Classroom provides a centralized platform where students can access course materials, assignments, and resources anytime, anywhere. Through this innovative tool, students can engage in active problem-solving activities, participate in discussions, and collaborate on projects in real-time. Moreover, Google Classroom facilitates timely feedback from instructors, allowing students to track their progress and address any challenges effectively. By integrating Google Classroom into our problem-solving methodologies, we aim to empower students with the digital tools and resources they need to excel academically and thrive in today's technology-driven world.

Unit-2-Assignment-1(a)-Google Doc Due Jul 20, 2020, 11:59 PM

Unit-2-Assignment-2-Air Fuel Mixture Due Jul 23, 2020, 11:59 PM

Posted Jul 21, 2020 (Edited Aug 10, 2020)

Write the answer of the following questions.

- 1) Factors affecting Carburetor
- 2) Air fuel mixture (Draw chart) and explain the following
 - i) Stoichiometric Ratio
 - ii) Rich Mixture
 - iii) Lean Mixture

Take this PDF as sample only.
Write the answer by searching on internet in your own language.
