Mission Amrit Sarovar: supported by the All-India Council for Technical Education (AICTE) and the Archaeological Survey of India (ASI)

Mission Amrit Sarovar, supported by the All-India Council for Technical Education (AICTE) and the Archaeological Survey of India (ASI), stands as a testament to collaborative efforts in preserving and revitalizing India's cultural and natural heritage. One notable milestone in this endeavor was the exhibition held from August 13-15, 2022, at Jethabhai's Stepwell in Isanpur, spearheaded by the Civil Engineering Department of Saffrony Institute of Technology.

Prior to the exhibition, students from the civil engineering and mechanical engineering departments meticulously analyzed and surveyed the challenges faced by the stepwell and its surroundings, proposing innovative solutions for its restoration. This groundwork laid the foundation for the historic event that unfolded on India's 76th Independence Day, as the institute proudly hoisted the national flag at the stepwell for the first time in its history.

This momentous occasion not only showcased the institute's commitment to heritage conservation but also fostered a sense of pride and awareness among the local community. The internship undertaken as part of Mission Amrit Sarovar, under the visionary leadership of Prime Minister Narendra Modi, aimed to preserve and promote India's water resources while positioning them as tourism destinations. Out of 200 colleges selected nationwide, the institute's participation underscored its dedication to environmental stewardship and sustainable development.

Under the mentorship of Prof. Joseph Sebastian and Prof. Avani Dedhia, students like Kunal Gupta, Mihir Modha, Prachi Patel, and others engaged in beyond-the-campus environmental promotion activities, contributing their expertise and passion to the noble cause. Their names stand as a testament to their dedication and commitment to making a meaningful impact beyond the confines of the classroom.

Through initiatives like Mission Amrit Sarovar, institutes like Saffrony Institute of Technology exemplify the power of collaboration and innovation in safeguarding India's rich heritage and natural resources for generations to come.

Vishwakarma Yojana under the guidance of GTU

As an affiliate of Gujarat Technological University (GTU), the S.P.B. Patel Engineering College takes pride in its contribution to the Vishwakarma Yojana project facilitated by GTU. This initiative, which integrates engineering students into holistic village development, aligns perfectly with our commitment to environmental promotion beyond the confines of our campus.

The Vishwakarma Yojana project, spearheaded by GTU, envisions comprehensive rural infrastructure development that encompasses physical, social, and renewable components. At Saffrony Institute, we recognize the significance of this endeavor in mitigating urban pressure and fostering self-sustaining 'Rurban' areas. By actively involving our students in this project, we provide them with invaluable hands-on experience while addressing pressing rural development needs through sustainable solutions.

Our students, alongside their counterparts from GTU, have demonstrated commendable dedication and hard work, ensuring the smooth progress of the Vishwakarma Yojana project. Through their involvement, they not only apply their technical knowledge but also gain practical insights into environmental stewardship and sustainable progress.

At Saffrony Institute, we understand that environmental promotion is a collaborative effort. By partnering with GTU and other stakeholders, including government agencies and local communities, we contribute to the advancement of rural development goals while promoting environmental consciousness and action.

In summary, our affiliation with GTU through initiatives like the Vishwakarma Yojana project reflects our commitment to environmental promotion activities that extend beyond the campus. Through hands-on engagement and collaborative efforts, we strive to foster sustainable progress and holistic development in rural areas, leaving a positive impact on both society and the environment.

Village Interaction With Sarpanch / Talati Letter

Vishwakarma Yojana Phase VIII
Vadpura Village, Kadi Taluka, Mehsana District
Village pin code : 382705

Subject : Approval Of Design Proposal For Vadpura Village

I Sarpanch / Talati of Vadpura village undersigned gives approval for following main design proposal gives under Vishwakarma Yojana Phase VIII An approach towards urbanization by students of S.P.B.PATEL Engineering collage (SAFFRONY INSTITUTE OF TECHNOLOGY) named Jaimin Joshi (180393106001) and Chirag Panchal (180393106006)

❖ Approved Main Design Proposals As Per Part 1 :

1. School Design
2. Community Hall Design
3. Main Gate
4. Solid Waste Management
5. Aganavadi
6. Septic Tank Design

Students participation in Clean India

The Institute is committed to environmental promotion activities beyond its campus borders, proudly acknowledges the active participation of its students in various initiatives dedicated to realizing the vision of a Clean India.

One significant example is our students' enthusiastic involvement in Clean India quiz competitions and similar events aimed at fostering awareness and action towards cleanliness and environmental sustainability. Through their engagement in these activities, our students demonstrate their dedication to making a tangible difference in their communities and promoting a culture of cleanliness and hygiene.

Aligned with the national Clean India mission, these initiatives not only promote cleanliness and hygiene but also instill a sense of responsibility and environmental stewardship among our students. By actively participating in such events, they contribute to the larger goal of creating a cleaner, greener, and more sustainable environment.

At Saffrony Institute, we believe in empowering our students to be agents of positive change, both within their immediate surroundings and in society at large. By encouraging their active involvement in Clean India initiatives, we nurture a culture of environmental consciousness and civic engagement that extends far beyond the boundaries of our campus.

In summary, the Saffrony Institute is proud to support and facilitate the active participation of its students in initiatives aimed at promoting environmental sustainability and cleanliness. Through their collective efforts, they exemplify our shared commitment to creating a better, cleaner, and more sustainable future for all.
