Memorandum of Understanding

This Memorandum of Understanding (MOU) is made and entered into on this day 01st February 2020 between S.P.B. Patel Engineering College, Ahmedabad-Mehsana Highway, Linch, Mehsana 384435 (Saffrony Institute of Technology - SIT) and Pipefit Engineers Pvt. Ltd. having its main office at 377, GIDC Estate, Makarpura, Vadodara-390004.

Whereas both the parties hereto have shown their willingness to enter into an MOU with the following objectives, mainly to enhance the quality of industry-academic engagement:

1. Objectives

- 1.1 Pipefit Engineers Pvt. Ltd. and SIT will on reciprocal basis provide guest lectures and training to their respective student on special topics of mutual interest.
- 1.2 To organize joint workshops, seminars, and programmes on subjects of contemporary interest in various fields of technology in various domains of engineering.
- 1.3 Based on research areas jointly identified, few interested students from the institute can take it as their research projects at UG level. The research projects could be carried out at SIT or at Pipefit Engineers Pvt. Ltd. locations in India.
- 1.4 Based on the themes / challenges / issues identified by Pipefit Engineers Pvt. Ltd., a lecture series may be organized by calling experts (in house and outside). Industry experts could also be invited by SIT with an aim to fill the gap between curriculum and industry practices.
- 1.5 SIT would support Pipefit Engineers Pvt. Ltd. in research relating to operations / troubleshooting.
- 1.6 SIT will provide intellectual support for any event organized/sponsored by Pipefit Engineers Pvt. Ltd. and also work as knowledge partner in areas of mutual interest subject to prior consent of both parties.
- 1.7 Pipefit Engineers Pvt. Ltd. to support training for SIT students at its various locations and group entities at mutually convenient time.
- 1.8 Pipefit Engineers Pvt. Ltd. would provide industrial training (also called Industry Defined Project) and assign short-term project work to SIT students of various disciplines/branches of engineering.
- 1.9 Pipefit Engineers Pvt. Ltd. would support and advise SIT in aligning the academic curriculum to match industry expectations.
- 1.10 Pipefit Engineers Pvt. Ltd. would give an opportunity to SIT students for On Campus Interview selection with respect to Pipefit Engineers Pvt. Ltd.'s manpower requirements for hiring Engineering graduates.

2. Obligations

- 2.1 This MOU between SIT and Pipefit Engineers Pvt. Ltd. shall not be exclusive to both parties and shall not disallow each party from having similar understanding with others.

Memorandum of Understanding

This Memorandum of Understanding (MOU) is made and entered into on this day 13th August 2019 between S.P.B. Patel Engineering College, Ahmedabad-Mehsana Highway, Linch, Mehsana 384435 (Saffrony Institute of Technology - SIT) and Virasat Ready Mix. having its main office at HO 162, Shukan Mall, Science City Road, Sola, Ahmedabad.

Whereas both the parties hereto have shown their willingness to enter into an MOU with the following objectives, mainly to enhance the quality of industry-academic engagement:

1. Objectives

- 1.1 Virasat Ready Mix. and SIT will on reciprocal basis provide guest lectures and training to their respective student on special topics of mutual interest.
- 1.2 To organize joint workshops, seminars, and programmes on subjects of contemporary interest in various fields of technology in various domains of engineering.
- 1.3 Based on research areas jointly identified, few interested students from the institute can take it as their research projects at UG level. The research projects could be carried out at SIT or at Virasat Ready Mix. locations in India.
- 1.4 Based on the themes / challenges / issues identified by Virasat Ready Mix., a lecture series may be organized by calling experts (in house and outside). Industry experts could also be invited by SIT with an aim to fill the gap between curriculum and industry practices.
- 1.5 SIT would support Virasat Ready Mix. in research relating to operations / troubleshooting.
- 1.6 SIT will provide intellectual support for any event organized/sponsored by Virasat Ready Mix. and also work as knowledge partner in areas of mutual interest subject to prior consent of both parties.
- 1.7 Virasat Ready Mix. to support training for SIT students at its various locations and group entities at mutually convenient time.
- 1.8 Virasat Ready Mix. would provide industrial training (also called Industry Defined Project) and assign short-term project work to SIT students of various disciplines/branches of engineering.
- 1.9 Virasat Ready Mix. would support and advise SIT in aligning the academic curriculum to match industry expectations.
- 1.10 Virasat Ready Mix. would give an opportunity to SIT students for On Campus Interview selection with respect to Virasat Ready Mix.'s manpower requirements for hiring Engineering graduates.

2. Obligations

- 2.1 This MOU between SIT and Virasat Ready Mix. shall not be exclusive to both parties and shall not disallow each party from having similar understanding with others.

- 2.2 Each party shall respect the other's intellectual property and shall not use any trade name, trade mark, symbol or designation belonging to the other, to the detriment of the other. No party shall hold out as an agent or representative of the other or create any liability for the other.
- 2.3 Both parties shall maintain confidentiality about any information, course material, plans, discussions, strategies, or any material, which shall be deemed to be confidential and marked accordingly. Any information, course material or the like in the public domain shall not be part of this commitment.

3. Limitations & Warranties

- 3.1 Each party shall ensure that the other is not put to any liability for any act of the respective party.
- 3.2 Each party represents that they have the full power and authority to enter into this MOU in general.

4. Validity

This MOU will be in effect from 13th August 2019 to 12th August 2021. At least one month intimation be given to other party as goodwill gesture prior to revoking the MOU.

5. General

Both parties will designate a representative from its side who will be the primary point of contact on behalf of that party.

By signing below the parties acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as of the date of signing of this MOU.

Expert Session Report: Different Types of RMC Plants and Advantages

Date: 13th August 2019

Expert: Mr. Mitesh Patel

Topic: Different Types of RMC Plants and Advantages

Host: S.P.B. Patel Engineering College

Company: Virasat Ready Mix

Students participated: 23 from civil department

Introduction:

On August 13th, 2019, S.P.B. Patel Engineering College hosted an expert session on "Different Types of RMC Plants and Advantages," led by Mr. Mitesh Patel from Virasat Ready Mix. The session aimed to educate students about various types of Ready Mix Concrete (RMC) plants and their benefits in construction projects.

Key Discussion Points:

1. **Types of RMC Plants:** Mr. Patel provided insights into different types of RMC plants, including central-mixed, transit-mixed, and shrink-mixed plants. He explained the distinct features and working principles of each type.
2. **Advantages of RMC Plants:** The session highlighted the advantages of using RMC in construction projects, such as improved quality control, reduced labor and equipment costs, faster construction timelines, and minimized environmental impact.
3. **Case Studies:** Mr. Patel presented case studies and real-world examples to illustrate the successful implementation of RMC plants in various construction projects, showcasing their efficiency and effectiveness.

Interactive Learning:

The session encouraged active participation from students, who engaged in discussions and asked questions to deepen their understanding of RMC plants and their advantages. Practical demonstrations further enhanced the learning experience.

Conclusion:

The expert session on Different Types of RMC Plants and Advantages, conducted by Mr. Mitesh Patel from Virasat Ready Mix, provided valuable insights to students at S.P.B. Patel Engineering College. The session equipped students with knowledge about the different types of RMC plants available and their benefits in construction, preparing them for future roles in the industry.

Memorandum of Understanding

This Memorandum of Understanding (MOU) is made and entered into on this day 01st February 2020 between S.P.B. Patel Engineering College, Ahmedabad-Mehsana Highway, Linch, Mehsana 384435 (Saffrony Institute of Technology - SIT) and Pipefit Engineers Pvt. Ltd. having its main office at 377, GIDC Estate, Makarpura, Vadodara-390004.

Whereas both the parties hereto have shown their willingness to enter into an MOU with the following objectives, mainly to enhance the quality of industry-academic engagement:

1. Objectives

- 1.1 Pipefit Engineers Pvt. Ltd. and SIT will on reciprocal basis provide guest lectures and training to their respective student on special topics of mutual interest.
- 1.2 To organize joint workshops, seminars, and programmes on subjects of contemporary interest in various fields of technology in various domains of engineering.
- 1.3 Based on research areas jointly identified, few interested students from the institute can take it as their research projects at UG level. The research projects could be carried out at SIT or at Pipefit Engineers Pvt. Ltd. locations in India.
- 1.4 Based on the themes / challenges / issues identified by Pipefit Engineers Pvt. Ltd., a lecture series may be organized by calling experts (in house and outside). Industry experts could also be invited by SIT with an aim to fill the gap between curriculum and industry practices.
- 1.5 SIT would support Pipefit Engineers Pvt. Ltd. in research relating to operations / troubleshooting.
- 1.6 SIT will provide intellectual support for any event organized/sponsored by Pipefit Engineers Pvt. Ltd. and also work as knowledge partner in areas of mutual interest subject to prior consent of both parties.
- 1.7 Pipefit Engineers Pvt. Ltd. to support training for SIT students at its various locations and group entities at mutually convenient time.
- 1.8 Pipefit Engineers Pvt. Ltd. would provide industrial training (also called Industry Defined Project) and assign short-term project work to SIT students of various disciplines/branches of engineering.
- 1.9 Pipefit Engineers Pvt. Ltd. would support and advise SIT in aligning the academic curriculum to match industry expectations.
- 1.10 Pipefit Engineers Pvt. Ltd. would give an opportunity to SIT students for On Campus Interview selection with respect to Pipefit Engineers Pvt. Ltd.'s manpower requirements for hiring Engineering graduates.

2. Obligations

- 2.1 This MOU between SIT and Pipefit Engineers Pvt. Ltd. shall not be exclusive to both parties and shall not disallow each party from having similar understanding with others.

- 2.2 Each party shall respect the other's intellectual property and shall not use any trade name, trade mark, symbol or designation belonging to the other, to the detriment of the other. No party shall hold out as an agent or representative of the other or create any liability for the other.
- 2.3 Both parties shall maintain confidentiality about any information, course material, plans, discussions, strategies, or any material, which shall be deemed to be confidential and marked accordingly. Any information, course material or the like in the public domain shall not be part of this commitment.

3. Limitations & Warranties

- 3.1 Each party shall ensure that the other is not put to any liability for any act of the respective party.
- 3.2 Each party represents that they have the full power and authority to enter into this MOU in general.

4. Validity

This MOU will be in effect from 01st February 2020 to 31st January 2023. At least one month intimation be given to other party as goodwill gesture prior to revoking the MOU.

5. General

Both parties will designate a representative from its side who will be the primary point of contact on behalf of that party.

By signing below the parties acting by their duly authorized officers, have caused this Memorandum of Understanding to be executed, effective as of the date of signing of this MOU.

Expert Session Report: Hydraulic Systems and its Industrial Uses

On the 1st of February 2017, S.P.B. Patel Engineering College hosted an expert session on "Hydraulic Systems and its Industrial Uses," facilitated by Mr. Dipak Dadiya from Pipefit Engineers Pvt. Ltd. The session, aimed at 25 mechanical engineering students, provided a comprehensive understanding of hydraulic systems and their applications in various industries.

Mr. Dipak Dadiya commenced the session by elucidating the fundamental principles of hydraulic systems, emphasizing the role of fluid mechanics and the functioning of key components such as pumps, valves, cylinders, and actuators. He underscored the significance of these components in facilitating the transfer of power and motion in hydraulic machinery.

Furthermore, Mr. Dadiya delved into the diverse industrial applications of hydraulic systems, ranging from heavy machinery and construction equipment to aerospace systems and automotive technology. Through real-world examples and case studies, students gained insights into the versatility and utility of hydraulic technology across different sectors.

Safety considerations were also emphasized during the session, with Mr. Dadiya highlighting the importance of adhering to safety protocols and implementing regular maintenance practices to ensure the reliability and safety of hydraulic systems in industrial environments.

The interactive nature of the session facilitated active participation from the students, who engaged in discussions, asked questions, and participated in practical demonstrations of hydraulic components and systems. This hands-on approach enhanced their understanding of hydraulic technology and its practical applications in engineering.

In conclusion, the expert session led by Mr. Dipak Dadiya provided invaluable insights into hydraulic systems and their industrial uses for the mechanical engineering students at S.P.B. Patel Engineering College. The collaboration with Pipefit Engineers Pvt. Ltd. enriched students' knowledge and prepared them for future endeavors in the field of mechanical engineering, equipped with essential skills and understanding of hydraulic technology.
